**GRASSROOTS  
MEMORY LOSS BUDDER**

Grassroots square jars with rounded edges make scooping out every last dab of concentrate from this jar easier than ever. Lifting the lid off exposed a wave of fruity and sugary terpenes, likely from the nearly 5% terpinolene. On the exhale I was taken on a flavor rollercoaster, with citrus fruit dominating the profile and notes of pine and wood sneaking through the cracks. 83.36% Total Cannabinoids | 10.33% Total Terpenes | grassrootscannabis.com @grassrootscompanies
