ABOUT MOTHER EXOTIC

Founded in 2019, Mother Exotic is a women-owned, minority-led cannabis brand rooted in innovation, sustainability, and community empowerment. Based in Los Angeles, they cultivate premium organic cannabis using environmentally responsible, tech-forward practices. With a mission grounded in integrity and equity, they uplift marginalized communities through mentorship, training, and advocacy—helping to build a more inclusive and accessible industry. Their diverse leadership and commitment to social equity set them apart as they contribute to programs addressing the lasting impacts of cannabis prohibition. Mother Exotic aims to grow more than cannabis—cultivating opportunity, inspiring change, and leading with purpose.
