SUNMED 2.0: FOR THE CANNABIS CONNOISSEUR

Sun. Science. Smooth.

The sun rising behind SunMed's Mother Plant Room.

Spring vibes and craft concentrates.

This March, SunMed Labs released our live resin infused pre-roll – marking the first time Maryland patients will have access to the craft concentrate gaining popularity with cannabis connoisseurs across the country. This exciting new product takes our carefully curated pre-rolls, brimming with hand-picked, sun-grown flower, to the next level. Infused with our own full-spectrum liquid live resin, they burn slow with a bold, intense flavor unique to each strain profile while offering a higher potency than any raw flower.

As we continue to make progress with the third expansion of our facility, we anticipate the new greenhouse will be complete this summer and construction of a new, state-of-the-art lab space will soon be underway. With the largest and most technologically advanced facility in the region, our team is excited to be developing various, new concentrates for Maryland patients who prefer clean, natural, and potent treatment alternatives.

Stay tuned!

Jake Van Wingerden
Founder and President

WHAT'S GROWING . . .

As we near completion of the new greenhouse and lab facilities, stay tuned for new product launch updates and a first look at our new space.

SUNMED PRE-ROLLS ARE TAKING IT TO THE NEXT LEVEL

SunMed Slims

Small batch, hand-crafted feel with premium SunMed strains for an even burn, every time.

No canoes this spring! SunMed Slims are prepared with TruRoll technology to create a slimmer, smoother, lighter joint that's rolled - not packed - to guarantee a slow, even burn. Made with only our sun-grown flower - never trim - each package includes two half-gram joints.

The Classic Pre-Roll

Our innovative automation technology precisely weighs, packs, and twists each cone into 0.5 grams of pre-roll perfection. Available in two packs, our classic pre-rolls are made in every SunMed strain with our sun-grown flower.

Infused Pre-roll

Craft concentrates designed for the cannabis connoisseur.

The wait is over for Maryland patients eager to see what the infused pre-roll buzz is all about. The first of their kind in Maryland, we're rolling our best sun-grown flower with our house-made liquid live resin (LLR) for an experience like never before.

Each pre-roll contains 500mg of flower and 100-150mg of LLR to provide a much higher potency than any raw flower and a much slower burn than traditional pre-rolls - all rolled up with intense flavor.

TEAM SPOTLIGHT

Meet Steve!

Steve Bartlett is Assistant Lab Director at SunMed Labs. Part of Maryland's medical cannabis industry for three years, he's grateful for the mentorship and experience gained along the way.

“The combination of raw soils, sun, and traditional greenhouse practices against the innovative technology used in our lab for extraction is the perfect marriage of science and simplicity.”

Since SunMed Labs launched in mid-December last year, Steve and the Labs team have worked thoughtfully and tirelessly to craft a unique and exciting new variety of sun-grown concentrates and infused products for Maryland patients. This includes SunMed's Live Resin Infused pre-roll, which is the first of its kind in Maryland.

“SunMed's facility stands out from the rest. From our teams to the technology, to the craft of greenhouse cultivation developed over decades of family growers . . . it doesn't get much better than this.”

STEVE'S SUNMED FAVORITES

PEANUT BUTTER & JELLY LIVE RESIN BATTER

82.05% Cannabinoids
11.47% Terpenes

NOW N' LEMONZ LIVE RESIN SUGAR

85.03% Cannabinoids
6.97% Terpenes

DARK RAINBOW LIVE RESIN BATTER

85.24% Cannabinoids
4.87% Terpenes

COLORING THE WAY:

SunMed: Packaging Guide

SunMed Cannabis Strain Colors

SATIVA

A **red** label indicates a Sativa strain, commonly associated with energy.

INDICA

A **purple** label indicates an Indica strain, commonly associated with relaxation.

HYBRID

A **green** label indicates a hybrid strain, usually a cross of both Sativa and Indica strains, commonly associate with a more balanced experience.
